COMPLEXANT

Copper-X. Where the signal graphic will not work, set the name in the same face and weight and color only the X in Copper #C7742D. Where color cannot be controlled, the name is simply Complexant, with no special treatment.

THE FOUR TEXTURES

|                                                                                                    |                                                                                             |                                                                                                   |                                                                                       |
|----------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
